## BLOOD IN RIVERS FROM BATTLE AND BOMB SUGAR FRAUDS INCLUDE REFINERY

### BOMB FOR POLICE CHIEF

ST. PETERSBURG, Dec. 22.—Col. Karpoff, chief of the secret police of the city, was killed today by a bomb thrown by an anarchist. The deed was clearly the work of a deliberate plot carefully worked out by the anarchists.

### Dead King Is Laid to Rest

(Special Bulletin Cable.)  
BRUSSELS, Belgium, Dec. 22.—The funeral of the late King Leopold took place today. The royal ceremonies were most impressive. The city was crowded with thousands of visitors from outside districts. The body was placed in the royal vault at Laeken.

### Prairie and Consort Arrive

(Special Bulletin Cable.)  
COLON, Panama, Dec. 22.—The armed United States transport Prairie, accompanied by the gunboat Dolphin, arrived at this port today.

### Prime Minister Shot in Street

BUCHAREST, Roumania, Dec. 22.—The Prime Minister of Roumania was shot today and seriously wounded by an anarchist.

### ROW ON BOARD NUUANU—GUN DRAWN

This morning there was some little trouble on board the bark Nuuanu when the mate, the carpenter, and a stevedore named Campbell became involved in a row.

It appears that Campbell and the mate had an argument and Eric Smith, the carpenter, came to the mate's assistance. As Campbell was putting up a good bluff, Smith is alleged to have drawn some kind of a popgun and threatened Campbell with it.

As the "gun" only had one cartridge, and that had been inserted in the cylinder backwards, Smith's threat did not amount to much. However, Campbell swore out a warrant for his arrest and the "gun man" was brought to the police station, only to be released by the deputy sheriff, to appear tomorrow morning.

\$7,750 FOR LAND.

At noon today, J. F. Morgan put up at public auction a piece of land situated on Kalakaua avenue. After brisk bidding, which was started at \$5000, the land was finally knocked down to the Bishop Trust Company, who purchased it for \$7750, on behalf of James Steiner, a client.

### Depew To Introduce The Amendments

New York Senator Will Sponsor Organic Act Changes In Upper House

The bill embodying the amendments to the Organic Act of the Territory, which were passed by the special session of the Legislature called by Governor Frear, will be introduced in the Senate of the United States by Senator Depew of New York.

This information has been received in a letter written to Acting Governor Mont-Smith from Washington by Governor Frear, who gives details of his work in connection with the preparation for the introduction of the bill at the present session of Congress.

Depew has practically agreed to stand sponsor for the Organic Act amending bill in the Senate and another member of the upper house who is looked upon to exercise a powerful influence in favor of the measure is Senator Dillingham of Vermont, who was recently in Hawaii as a member of the Immigration Commission.

Governor Frear states that the prospects for favorable action on the bill at this session are promising and that

the hearings before the House and Senate committees have been arranged for, Kuhio and George B. McClelland preparing to center all their efforts upon pressing the amendments before Congress. From the tone of the Governor's letter, which was written on December 5, the department heads recognize that Hawaii has reached a point where changes in its Organic law are essential and accordingly it is expected that there will be little opposition to the amending bill as a whole although it is intimated that the general salary increases that are incorporated in it can be expected to be materially reduced by the national legislators.

The sponsor for the bill in the House of Representatives is not stated but it is believed that it will be Congressman Bartholdt, who was the dean of the last Congressional party that visited the islands and who occupies a leading position in the lower house of Congress.

### WARNS HAWAII ON FILIPINO HOOK WORM

U.S. Marine Hospital Surgeon Writes Of Practical Sanitation

Dr. E. S. Goodhue of Kona has recently received a letter from Dr. Brewer of the U. S. Marine Hospital service of the Philippines bearing on the health of the Filipinos. Brewer is vouched for as a careful student and he has published some valuable works on tropical diseases. The letter follows:

Danao, Cebu, P. I.  
Sept. 29, 1909.

My Dear Dr. Goodhue:  
We have recently had a visit from a Mr. Stevens, who is endeavoring to obtain Filipinos for the sugar plantations in Hawaii. Just what success he will have it is hard to say. There is a prejudice among these people and they may not care to migrate. This is kept alive by the men who have plantations here. Over here the native is not much of a worker, but Mr. Stevens told me that they did very well in Hawaii.

There is, however, one thing which some of the plantation owners may overlook, the prevalence of intestinal parasites among these people. If you have not the Philippine Journal of Science at hand you may not know the importance of this subject. Dr. P. E. Garrison, as a result of

### DOLE HOLDS THAT FEDERAL COURT CAN ACT

Changes Opinion On The Absence Of Woodruff

WILL HEAR CASES THAT ARE PENDING

Decision Comes As Surprise After Belief That New Statute Prevents Sessions of the United States District Court.

After listening to a strong argument by Attorney A. G. M. Robertson this morning, Federal Judge Dole decided that it would be possible for the United States District Court to continue in operation although the second judge, Woodruff, is now absent from the Territory on his way to Washington—his resignation to take effect on the first day of the new year.

Yesterday Judge Dole and United States District Attorney Breckons agreed that, according to a strict interpretation of the statute as passed at the last session of the sixtieth Congress, it was impossible for the Federal Court to continue in operation while only one judge was present. Judge Dole's opinion was more or less informal and upon further reflection and listening to the convincing argument of A. G. M. Robertson this morning he decided that he did not agree with the view expressed by Mr. Breckons and accordingly formally decided that the machinery of the Federal Court would not have to be halted because Woodruff is now a passenger on the Korea bound for San Francisco.

The general tenor of Judge Dole's decision this morning was that in the interim existing between Woodruff's departure from Hawaii and the taking effect of his resignation, his absence would be considered in the light of a leave of absence and would for all practical purposes be in that category. The construction now placed upon the wording of the statute that "the said court shall consist of two judges . . . who shall reside therein," is that they shall be de facto residents of the Territory during their term of office and is not construed to mean that if a judge should see fit to leave for the mainland for a period—even though it be with the intention of resigning—that the machinery of the court has to be halted.

This view was supported by Attorney A. G. M. Robertson, who cited a number of authorities in support of his contention that Judge Dole is privileged to proceed with the cases that have been pending before him.

United States District Attorney Breckons noted an exception to Judge Dole's ruling, adhering to his former stand that the United States District Court is without legal standing because of the departure of Woodruff on the Korea.

### HAVE MOTOR CYCLE DELIVERY

W. C. Peacock & Co., the house of quality, recently remodelled their establishment and are now making a bid for the family trade. During the holidays they instituted the practice of delivering packages for this trade in plain sealed covers which has proved so popular to the trade that they found their business required a motor cycle with which to make the deliveries. The motor cycle was purchased and they are now able to make all their retail deliveries in this manner.

If you have not ordered your wines and liquors for the Christmas dinner do so now by ringing up Peacock & Co. The order will be given prompt attention and you can rest assured that the quality you get will be above question.

Sometimes a man's will power is so strong that he only thinks of his swear words.

### Paele Pilikia Is Teapot Tempest

Says Mayor Fern In Defense of His Action In Withholding Charges Against Road Official

Mayor Fern declared this morning at a special meeting and will if proved authentic, be taken up at the full membership of the Board.

The big three-tongued prod has been unsheathed for Road Supervisor J. K. Paele of Koolau-poko district, and that official has come under the ban of displeasure of certain members of the board of city and county supervisors, and more especially those comprising the committee on roads and bridges.

In addition to what is alleged as a criminal charge, Paele also faces the allegation that he is incompetent in the handling of affairs in his district.

The road committee visited Koolau-poko the other day. They went prepared to settle a number of complaints which have been creeping over the Pail and into the city hall for some weeks past. They called upon Road Supervisor Paele and inquired into the work that he has been performing and its relation to

### Magistrate Is Assassin Victim

BOMBAY, India, Dec. 22.—Arthur Jackson, the chief magistrate of Nasik, was assassinated here today while attending one of the theaters of the city. The assassin was a native and presumably a member of the body of fanatics with anarchistic tendencies that is bitterly opposing the British rule.

Nasik is the capital of a district of Bombay on the Godavari river, about 100 miles from the city of Bombay and some thirty miles from the source of that river. It is the headquarters of Brahminism in the Deccan and one of the most sacred of Hindoo pilgrim resorts. The banks of the river are always crowded with devotees waiting to perform their daily ablutions before entering the temples which dot the banks on either side.

Nasik is the Nasica of Ptolemy and was anciently a Maharatta capital. It is noted for its manufactures of brass and copper work, paper, cotton, etc. It has a population of some 22,000. The district has an area of 5,940 square miles, embracing a population of some 820,000 inhabitants.

### A FEW LEFT

Amongst the many beautiful things Kerr & Co. have been showing lately is a large line of sample jet and shell, barrettes, back and side combs, hairpins, handbags and etc., which were sent them to be used as samples in making out their spring orders for the coming year, but as Mr. Kerr will be leaving soon for the East they have decided to put these goods on sale at once. It will pay you to examine them soon as they are selling very fast and will soon be gone.

Santa Claus still continues to amuse the crowds with his dancing. Music boys and singing will continue to Xmas eve, when Santa will take a short rest in preparation for his Xmas morning delivery.

### 2600 ARE DEAD OR DYING

BLUEFIELDS, Nicaragua, Dec. 22.—The first great battle between the forces of President Zelaya and the army of Estrada that was fought yesterday resulted in a great disaster for the Zelayans.

Gen. Rana commanded the rebel army and administered a crushing defeat. The killed and wounded of the Zelayans is placed at 2,600, and four guns, fifteen hundred rifles and a million rounds of ammunition were surrendered to the victorious army.

Generals Castrillo and Gonzales of Zelaya's army are prisoners.

It is reported that two Americans were killed in the battle. The surgeons of the U. S. S. Des Moines are caring for the wounded brought in from the battlefield.

### Smallpox Epidemic In China

(Special Bulletin Cable.)  
AMOY, China, Dec. 22.—Smallpox epidemic has broken out and bids fair to get beyond control of the authorities. Amoy is a city of over 400,000 population and is considered in a most unsanitary condition.

### College Fire Heavy Loss

(Special Bulletin Cable.)  
SANTA CLARA, Cal., Dec. 22.—The south wing of Jesuit College was burned to the ground today. The loss is estimated at \$75,000.

"How do you define 'black as your hat'?" said a schoolmaster to one of his pupils. "Darkness that may be felt," replied the budding genius.—Columbia Jester.

Anyway, the grama widow escapes the annoyance of being told what a fine man her husband was.

### IS THERE NIGGER IN THE WOODPILE

Supervisors Suspicious Of Telephone Compact

"Is there a nigger in the woodpile?" or a joker in the new telephone agreement? is a question certain members of the Board of City and County Supervisors are asking themselves.

The county lawmakers as a majority do not take very kindly to the apparently friendly overtures made by the Mutual Telephone Company in the framing up of an agreement which is passed will serve to govern the relations of the City and County and the local hello people for many years to come.

A new agreement was presented to the Board at the meeting held at city hall last night.

Its advent was the signal for an unlimbering of the sledges and during the course of an hour's discussion, the anvil rang out right merrily.

The new agreement is said by the opposing majority to be but little more favorable to city and county interests than the former measure.

McClellan believed that the agreement had reached the Board too late
